Subject: Re: Complaint No. R9-2002-0203 (Tosco Service Station 5965)

Do you have anything that can prove to us that the samples were preserved with HCl. If you could get me something from your lab that will tell me that those samples were preserved with HCl it would be really helpful in determining whether those were violations or not? We could put this document in your file, incase someone from the public reviews your files, they will be aware of why the violations were not actual violations and why penalties were not assessed for them.
Thank you

C. Sherrie Komeylyan
Water Resource Control Engineer
Regional Water Quality Control Board - San Diego
